

QUAT SAN

DuBois

Disinfectant Sanitiser

DESCRIPTION:

Quat San is a clear liquid cationic sanitiser designed to be effective against a broad spectrum of micro-organisms at low dilution rates.

KEY PROPERTIES:

- Effective against a wide range of pathogenic bacteria, food spoilage bacteria, fungi and algae, in both CIP and COP applications.
- Odourless and non-toxic at use-dilutions.
- Unlike chlorine and iodine-based sanitisers, Quat San is completely stable and not affected by light or heat.
- Non-corrosive, non-volatile, non-flammable at use concentrations.

TECHNICAL DATA:

TEST	RESULT
Appearance	Clear liquid
Odour	Not available
Relative Density (25°C)	1.0

RECOMMENDED USE:

Foot baths

Dilute with cold water 400-1000 ppm, or 0.8-2.0% v/v.

General Sanitation

Dilute with cold water 200- 600 ppm, or 0.4-1.2% v/v.

At 200ppm QAC concentration Quat San can be considered as non-rinse for incidental food contact. For all other applications please rinse off all chemical residues with a sufficient potable water before commencing production.

MATERIAL COMPATIBILITY:

Quat San does not contain genetically modified organisms
Quat San does not contain allergens.

SAFE HANDLING & STORAGE CONDITIONS:

Before handling, the Safety Data Sheet (SDS) should be read and understood by all personnel in contact with this product.

DISPOSAL:

Any disposal of this product should follow all federal, state, and local regulations. Please refer to the Safety Data Sheet (SDS) for instructions regarding proper disposal of this product.

PRECAUTIONS:

KEEP OUT OF THE REACH OF CHILDREN.

Please refer to the label and Safety Data Sheet (SDS) for all warnings, recommendations for safety equipment, and other regulatory information. Copies of the SDS can be ordered by calling +61 3 9768 3860
